**Solar Attic Fan Rebate – 25% of Installed Cost up to \$150 - multiple units may be installed to reach maximum**

The purpose of this rebate is to encourage customers to have solar attic fans installed to help remove the heat build-up in their attics and bring the attic temperature down closer to the ambient outside temperature. Lower attic temperatures mean less heat penetrates down into the air-conditioned living area and helps reduce the need to run your air conditioner.

The reduction in attic temperature will also benefit the homeowner by preserving and extending the life of the roofing and attic construction materials. Additionally, hot air in an attic can then heat the metal exterior of your HVAC ductwork and consequently heat the air passing through it, causing your air conditioner to work even harder.

According to the Florida Solar Energy Center, during the peak summer months in the heat of the day, your attic's temperature can rise to 130° or more (depending on the roof material and color). This heat build-up can then raise the temperature inside your home and increase the amount of electricity used by air conditioners and other cooling equipment. 43% of air conditioning design load is based on high attic temperatures. Reduced attic temperature reduces air conditioning needs.

**Eligibility:** Must be a NSBU residential electric customer with an electric cooling system.

**Residential rebate amount: 25% of Installed Cost up to \$150**

- Rebate only applies to residential locations within the NSBU electric service area.
- Installation may be done by a licensed contractor or homeowner.
- Rebate amount cannot exceed item cost.
- Installation must take place within rebate program dates.

**Restrictions:**

1. **Rebates are subject to change without notice.**
2. **All rebates are subject to approval and are contingent upon fund availability.**
3. **May install multiple units to reach rebate \$ maximum per account location.**

**How to Apply for a Rebate:**

- Print out, complete and return a rebate form in to NSBU, 200 Canal St., along with a copy of the contractor's paid-in-full invoice or store receipt. You can also mail it to: P.O. Box 100, New Smyrna Beach, FL 32170.
- Rebate can be used in conjunction with other rebates if available.
- Rebate will be issued in the form of a credit on your New Smyrna Beach Utilities account. Be sure your full and correct name and account number is on the form.
- NSBU reserves the right to apply the rebate amount to any delinquency on any account in the customer's name.
- Please allow 4-6 weeks for processing.

For additional information or to find out if you qualify for a rebate please call Customer Service at (386) 427-1361. **To find a licensed contractor, visit the Florida Department of Business and Professional Regulation website at [www.myfloridalicense.com](http://www.myfloridalicense.com).**

**High Efficiency Central A/C Rebate for 16 or higher SEER Heat Pump with digital, programmable thermostat - 3-ton and under: \$150; 3.5 to 5-ton: \$250**

Older central A/C units can be costly to operate and maintain. New units are more efficient and use less energy. Annual energy savings for a 16-SEER or greater unit could be 30 percent or greater when compared to a 12-SEER unit. Additionally, heat pumps are considered very efficient compared with other heating systems, like electric heat strips; it delivers nearly double the energy in heat than the energy it consumes, according to the U.S. Department of Energy.

**Eligibility:** Must be a NSBU residential electric customer with an electric cooling system.

**Residential rebate amount: 3-ton and under: \$150; 3.5 to 5-ton: \$250**

- System Requirements: 5 tons (60,000 BTU) or smaller; Heating Season Performance Factor (HSPF) of 8.2 or greater; and central cooling system must be 16-SEER or greater.
- Equipment must be installed by a licensed A/C Contractor.
- Rebate applies to the purchase and installation of a complete A/C system.
- Customers may qualify for rebate on up to 1 HVAC system per location.
- May be used with other NSBU rebates.
- Rebate offer may not exceed the purchase price.

**Restrictions:**

1. **Rebates are subject to change without notice.**
2. **All rebates are subject to approval and are contingent upon fund availability.**
3. **Limit one rebate per location. Limit one rebate per five (5) year period.**

**How to Apply for a Rebate:**

- Arrange for an estimate and a subsequent equipment installation with a licensed A/C contractor.
- Submit the following to NSBU, 200 Canal Street, New Smyrna Beach, within rebate program dates. You can also mail it to: P.O. Box 100, New Smyrna Beach, FL 32170.
  - rebate form
  - proof of purchase
  - Certificate of AHRI Certified Performance and
  - SEER documentation.
- Rebate can be used in conjunction with other rebates if available.
- Rebate will be issued in the form of a credit on your New Smyrna Beach Utilities account. Be sure your full and correct name and account number is on the form.
- NSBU reserves the right to apply the rebate amount to any delinquency on any account in the customer's name.
- Please allow 4-6 weeks for processing.

For additional information or to find out if you qualify for a rebate please call Customer Service at (386) 427-1361. **To find a licensed contractor, visit the Florida Department of Business and Professional Regulation website at [www.myfloridalicense.com](http://www.myfloridalicense.com).**

**High Efficiency Central A/C Rebate for 16 or higher SEER Electric Straight Cooling System with Natural Gas Heating or Heat Strips with digital, programmable thermostat - 3-ton and under: \$120; 3.5 to 5-ton: \$200**

Older central A/C units can be costly to operate and maintain. New units are more efficient and use less energy. Annual energy savings for a 16-SEER or greater unit could be 30 percent or greater when compared to a 12-SEER unit. This rebate allows for our electric customers who also have natural gas to update/upgrade their electric cooling system and use energy efficient natural gas for heating or straight heat strips.

**Eligibility:** Must be a NSBU residential electric customer with an electric cooling system.

**Residential rebate amount: 3-ton and under: \$120; 3.5 to 5-ton: \$200**

- System Requirements: 5 tons (60,000 BTU) or smaller; central cooling system must be 16-SEER or greater.
- Equipment must be installed by a licensed A/C Contractor.
- Rebate applies to the purchase and installation of a complete A/C system.
- Customers may qualify for rebate on up to 1 HVAC system per location.
- May be used with other NSBU rebates.
- Rebate offer may not exceed the purchase price.

**Restrictions:**

1. **Rebates are subject to change without notice.**
2. **All rebates are subject to approval and are contingent upon fund availability.**
3. **Limit one rebate per location. Limit one rebate per five (5) year period.**

**How to Apply for a Rebate:**

- Arrange for an estimate and a subsequent equipment installation with a licensed A/C contractor.
- Submit the following to NSBU, 200 Canal Street, New Smyrna Beach, within rebate program dates. You can also mail it to: P.O. Box 100, New Smyrna Beach, FL 32170.
  - rebate form
  - proof of purchase
  - SEER documentation.
- Rebate can be used in conjunction with other rebates if available.
- Rebate will be issued in the form of a credit on your New Smyrna Beach Utilities account. Be sure your full and correct name and account number is on the form.
- NSBU reserves the right to apply the rebate amount to any delinquency on any account in the customer's name.
- Please allow 4-6 weeks for processing.

For additional information or to find out if you qualify for a rebate please call Customer Service at (386) 427-1361. **To find a licensed contractor, visit the Florida Department of Business and Professional Regulation website at [www.myfloridalicense.com](http://www.myfloridalicense.com).**

## **Electric Vehicle Home Charger Installation Rebate for the purchase and installation of a Level 2 plug-in electric vehicle charger: \$100**

After leasing/purchasing an electric vehicle (EV), you may want to consider installing a home charger because it can be more convenient, safer, less expensive, better for your EV's battery health, and help your property value appreciate. This rebate allows customers who chose to install a Level 2 EV home charger to offset the cost with \$100 credit on their utility bill.

**Eligibility:** Must be a NSBU residential electric customer leasing/owning an electric vehicle registered to an address in the NSBU electric territory.

### **Rebate amount: \$100**

- Random on-site verification of installed/purchased items may be performed prior to issuing rebate.
- Purchase, installation, and rebate applications must all occur within the rebate program period, April 1, 2023 – September 30, 2023.
- All rebates will be issued in the form of a credit on the utility bill.
- Maximum of one Vehicle Charging Station rebate per household.
- Charging station must be installed by a licensed electrical contractor.
- Charging station install must meet all state and local codes.
- Vehicle must be registered to an address within NSBU territory.
- Must have bill of sale/proof of purchase/lease agreement for Electric Vehicle.

### **Restrictions:**

1. **Rebates are subject to change without notice.**
2. **All rebates are subject to approval and are contingent upon fund availability.**
3. **Limit one rebate per location. Limit one rebate per five (5) year period.**

### **How to Apply for a Rebate:**

- Arrange for an estimate and a subsequent equipment installation with a licensed electrical contractor.
- Submit the following to NSBU, 200 Canal Street, New Smyrna Beach, within rebate program dates. You can also mail it to: P.O. Box 100, New Smyrna Beach, FL 32170.
  - rebate form
  - paid contractor invoice
  - proof of vehicle purchase/lease agreement
- Rebate can be used in conjunction with other rebates if available.
- Rebate will be issued in the form of a credit on your New Smyrna Beach Utilities account. Be sure your full and correct name and account number is on the form.
- NSBU reserves the right to apply the rebate amount to any delinquency on any account in the customer's name.
- Please allow 4-6 weeks for processing.

For additional information or to find out if you qualify for a rebate please call Customer Service at (386) 427-1361. To find a licensed contractor, visit the Florida Department of Business and Professional Regulation website at [www.myfloridalicense.com](http://www.myfloridalicense.com).

**Ultra-Low Flow Toilet Rebate for the purchase and installation of a 1.28 gallons per flush (GPF) WaterSense certified toilet: 100% of the cost, up to \$100**

According to the U.S. Environmental Protection Agency (EPA), toilets are the main source of water consumption inside your home and account for approximately 30% of indoor water consumption. Replacing older toilets (manufactured in 1993 or earlier) will help you reduce your monthly consumption. The new toilet must be an EPA WaterSense certified model that consumes 1.28 gallons per flush (GPF) or less and replace an existing toilet that consumes 3.5+ gallons per flush (GPF). Toilets manufactured before 1980 typically consume 5 GPF or more, while toilets manufactured between 1980-1993 typically consume 3.5 GPF. Replaced toilet must have been made before 1994. Proof of (GPF) on old toilet must be provided with photo of manufacture year and/or GPF printed on back of toilet seat or under tank lid.

**Eligibility:** Must be a NSBU residential water customer.

**Rebate amount: 100% of the cost, up to \$100**

- Random on-site verification of installed/purchased items may be performed prior to issuing rebate.
- All rebates will be issued in the form of a credit on the utility bill.
- Maximum of one toilet rebate per household.
- Toilet may be installed by homeowner or professionally installed.
- Purchase, installation, and rebate applications must all occur within the rebate program period, April 1, 2023 – September 30, 2023.
- Product information about the new toilet such as a manufacturer’s brochure or specification sheet, retailer’s product description screenshot, WaterSense certification screenshot, etc. is required.
- Replaced toilet must have been made before 1994. Proof of (GPF) on old toilet must be provided with photo of manufacture year and/or GPF printed on back of toilet seat or under tank lid.

**Restrictions:**

1. **Rebates are subject to change without notice.**
2. **All rebates are subject to approval and are contingent upon fund availability.**
3. **Limit one rebate per location. Limit one rebate per five (5) year period.**

**How to Apply for a Rebate:**

- Arrange for an estimate and a subsequent equipment installation, if desired.
- Submit the following to NSBU, 200 Canal Street, New Smyrna Beach, within rebate program dates. You can also mail it to: P.O. Box 100, New Smyrna Beach, FL 32170.
